Experience

Test Associate 2 / Software, AI, Hardware, Game QA, Experis – Tigard, OR AUGUST 2024 - PRESENT

• *AI - Glasses, META / Experis* FEBRUARY 2026 - PRESENT

- AI-Tools for Testing

• *Horizon Worlds(VR)(Mobile), META / Experis* OCTOBER 2024 - JANUARY 2026

- Focused on the Economy team (Transactions, Market, Quests); collaborated across multiple teams
- Developed expertise in internal META systems, applying them to streamline testing and documentation
- Authored multiple in-depth reference documents used by engineers as authoritative sources
- Logged and tracked over 1000 tickets; *led several high-priority bug investigations*

• *Asgards Wrath 2(VR)*, Sanzaru Games / Experis AUGUST 2024 - OCTOBER 2024

- Rapidly ramped up on QA fundamentals; recognized as a top contributor within 2 months
 - Filed over 70 detailed bug reports (Top 5 in volume and quality)
 - Improved technical writing skills to enhance clarity and communication in reports

• *Awarded: Tester of the Month* APRIL 2025

Game Tester, Lionbridge Games Studios – Remote (gametester.gg) AUGUST 2023 – PRESENT

- Self-service testing and researching platform for video games.
- Will check to make sure the game is working properly, feedback for video games, stress tests, etc
- Attained top 5% standing in Lionbridge], applying knowledge to optimize processes and outputs

Game Developer, Necessary Games – Remote SEPTEMBER 2021 – JUNE 2022

- Worked with a client to convert their games from FlashPunk to GameMaker Studio 2(GMS2)
 - “Walking With Magnus” -> github.com/kwakd/walk-or-cry
 - “W.O.D” -> github.com/RavenLickey/Walk-or-Die
- Engaged with clients regularly to discuss progress, collect feedback, and align project objectives
- Collaborated with developers to identify, document, and resolve software issues, supporting overall project quality

Summer Intern, Kindoh – Gangnam, South Korea JUNE 2018 – AUGUST 2018

- Looked for any bugs on the website/mobile pre-launch on WIX along with quality assurance for their new website.
- Assisted with optimization of their search engine for NAVER

Projects

glhf: button masher – Unity tototonme.itch.io/button-masher

- Developed a game in a game jam environment, awarded #1 for Fun and Balance.
- Created a game from the ground up, handling all core mechanics, leveling, UI design, etc

Cloud Photo File Upload Server – JavaScript github.com/kwakd/CS493-as4

- Implemented a simple photo service that allows for the API to support image uploads
- Images are stored in GridFS which afterwards RabbitMQ generates thumbnail images
- Correctly linked with original photo and database and also available to download

‘Banish Them’ – Kotlin github.com/osu-cs492-w22/final-project-group-3

- Created an Android App in a group using the RIOT GAMES API
- App is able to find a player’s information and displays it to the user.

Education

Oregon State University – BS in Computer Science (Minor in Music) JUNE 2022

Oregon State University – Dean’s List SPRING 2020

Meta Certificate – Front-End Developer DECEMBER 2023
